THE TIMES/PUBLIC SERVICE ANNOUNCEMENT

Age has a way of affecting how you see — and how you look.

We're experts at improving both.

Our physician specialists and professional eye care staff are specially-trained to help you see better — often without the need for unbecoming eyewear.

Our specially-trained eye plastic surgeon makes it his business to help you look better by painlessly correcting "droopy" eyelids and removing some very unsightly "bags" and blemishes.

**We'll help you see better and look better.**

All without ever leaving our conveniently-located outpatient surgery center.

We'll also help you feel better by explaining exactly what we propose, how much it will cost and how much your insurance company may be willing to pay.

Now it's up to you. If you're not seeing as well or looking as good as you'd like, call us at the office nearest you for an initial evaluation.

Unless, that is, you know of a better way to handle the aging process.
